

Bertran Miquel Oliver

Mathematician

- November 3rd, 1996
- Passage Josep Vicenç Foix, 20, 08750, Molins de Rei, Barcelona, Spain
- (+34) 680 80 58 53
- bertranmiqueloliver@gmail.com

Languages

- Catalan
- English
- French
- German
- Spanish

Softwares

- Azure Databricks
- Azure Data Factory
- Geogebra
- Git
- Jira
- Mathematica
- Office
- Power BI
- Qlik Sense
- Tableau

Programming languages

- C++
- C
- LaTeX
- Python
- R Studio
- SQL

Work experience

- Feb. 2024 - now **PhD Student**
BSC - Barcelona Supercomputing Center
- Sep. 2023 - July 2026 **Associate Professor**
UB - University of Barcelona
Part time professor of Computer Science Degree courses.
- June 2022 - June 2023 **Working student Data Analyst**
IFCO
Providing data analysis to worldwide customers.
Participating on a simulation project with Python.
- June 2020 - June 2021 **BI Technician**
Teladoc Health International
Integrating different systems into a BI tool, managing with databases and creating data models.
- Nov. 2019 - June 2020 **Business Intelligence Consultant**
SDG
Supporting international pharmaceutical businesses to become data-driven companies, using Qlik and Tableau.

Academic formation

- April 2021 - August 2023 **MSc. Degree in Mathematics**
Minor in Data Science & Biomathematics
TUM - Technical University of Munich
Final degree thesis: *Mathematical Investigation into Genomic Order of Different Vertebrate Species* - Grade: 1.0
Relevant courses: *Introduction to Deep Learning, Machine Learning, Mathematical Models in Biology, Genetics*
- Sep. 2014 - June 2019 **BSc. Degree in Mathematics**
UB - University of Barcelona

Courses

- Dec. 2023 **Intro to LLMs**
Codecademy
<https://www.codecademy.com/enrolled/courses/intro-to-llms>
- Dec. 2023 **Intro to Language Models in Python**
Codecademy
<https://www.codecademy.com/enrolled/courses/intro-to-language-models-in-python>
- Nov. 2023 **Build Deep Learning Models with TensorFlow**
Codecademy
<https://www.codecademy.com/enrolled/paths/build-deep-learning-models-with-tensorflow>
- March 2019 **Machine Learning Course**
Stanford University via Coursera
<https://www.coursera.org/learn/machine-learning>
